

CustomCast Co.

Company Profile

CustomCast

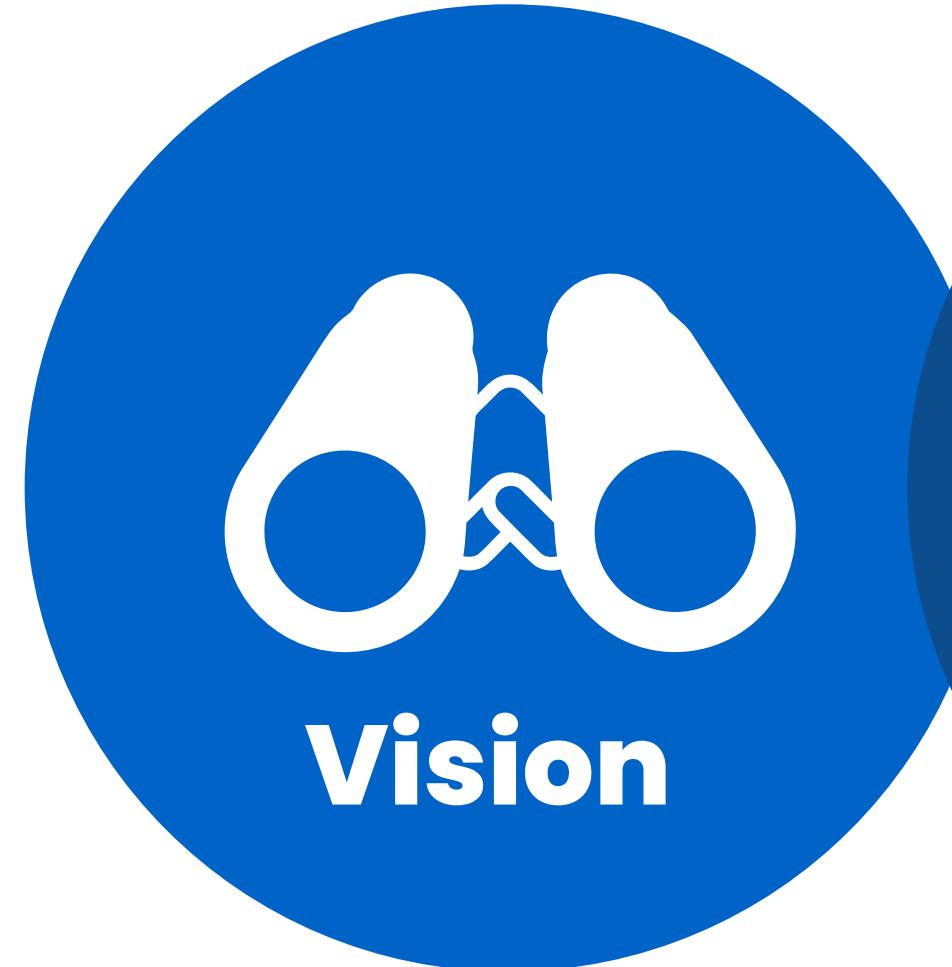

Presentation-2023

Our Company

Custom Cast is a leading company that specializes in providing customized products through innovative 3D design solutions. Our team of experienced engineers and designers utilizes cutting-edge technology and equipment to create high-quality products tailored to meet the specific needs and requirements of our clients. We are committed to delivering exceptional results and ensuring customer satisfaction through our focus on quality, efficiency, and cost-effectiveness. With our dedication to innovation and excellence, we are poised to make a significant impact in the industry and help our clients achieve their goals.

Vision

Mission

Vision

"To be the leading provider of innovative and customized solutions through advanced 3D printing and injection molding technologies, while maintaining a commitment to sustainability, quality, and customer satisfaction."

Mission

"Our mission is to provide innovative and customized 3D design solutions to our clients with a focus on quality, efficiency, and customer satisfaction. We strive to stay at the forefront of technology and continuously improve our processes to deliver the best products and services."

Our Slogan

Our CEO

Introducing our CEO, Muhammad Saad - a seasoned leader with a background in Electrical Engineering and a passion for innovation and creativity, Saad is poised to lead the company to new heights. He has honed his skills through various technical internships and has demonstrated his leadership abilities through his management roles in several university societies. His unique perspective, coupled with his ability to motivate and inspire, is the driving force behind the company's commitment to providing high-quality, customized products using cutting-edge 3D printing and injection molding technologies. With Saad at the helm, Custom Cast is poised for success and poised to revolutionize the world of product design and development.

Our Services

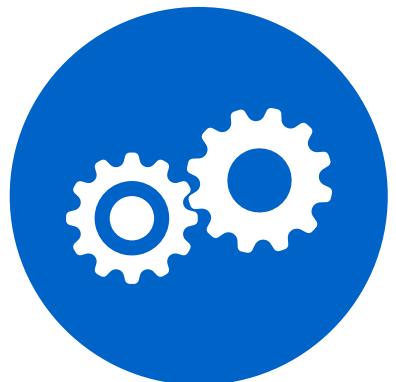

Customized 3D Printing

We provide customized 3D printing services to our clients, allowing them to bring their unique design ideas to life. Our state-of-the-art 3D printing technology ensures high-quality, accurate prints every time.

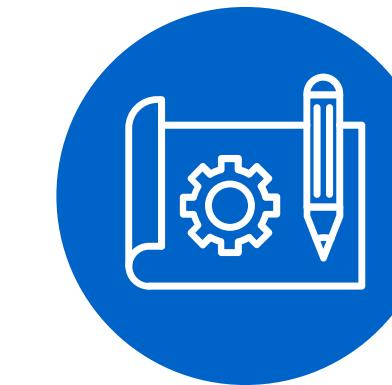

Injection Molding

We also offer injection molding services, allowing our clients to mass-produce their products with efficiency and precision. Our experienced team of professionals ensures that each product meets the highest quality standards.

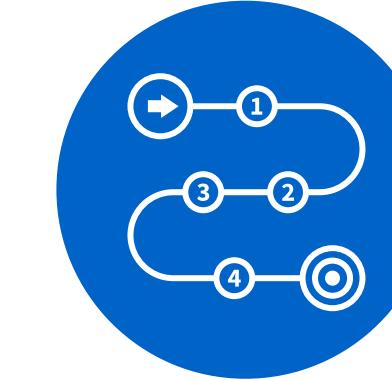

Design and Engineering

Our design and engineering services provide clients with the expertise they need to turn their ideas into reality. Our skilled team of designers and engineers works closely with clients to develop the most effective and innovative solutions.

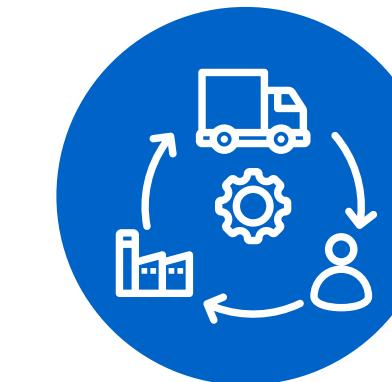

Prototyping

We offer prototyping services to help clients test and refine their products before mass production. Our prototyping process ensures that clients can evaluate their products before committing to large-scale production.

Product Development

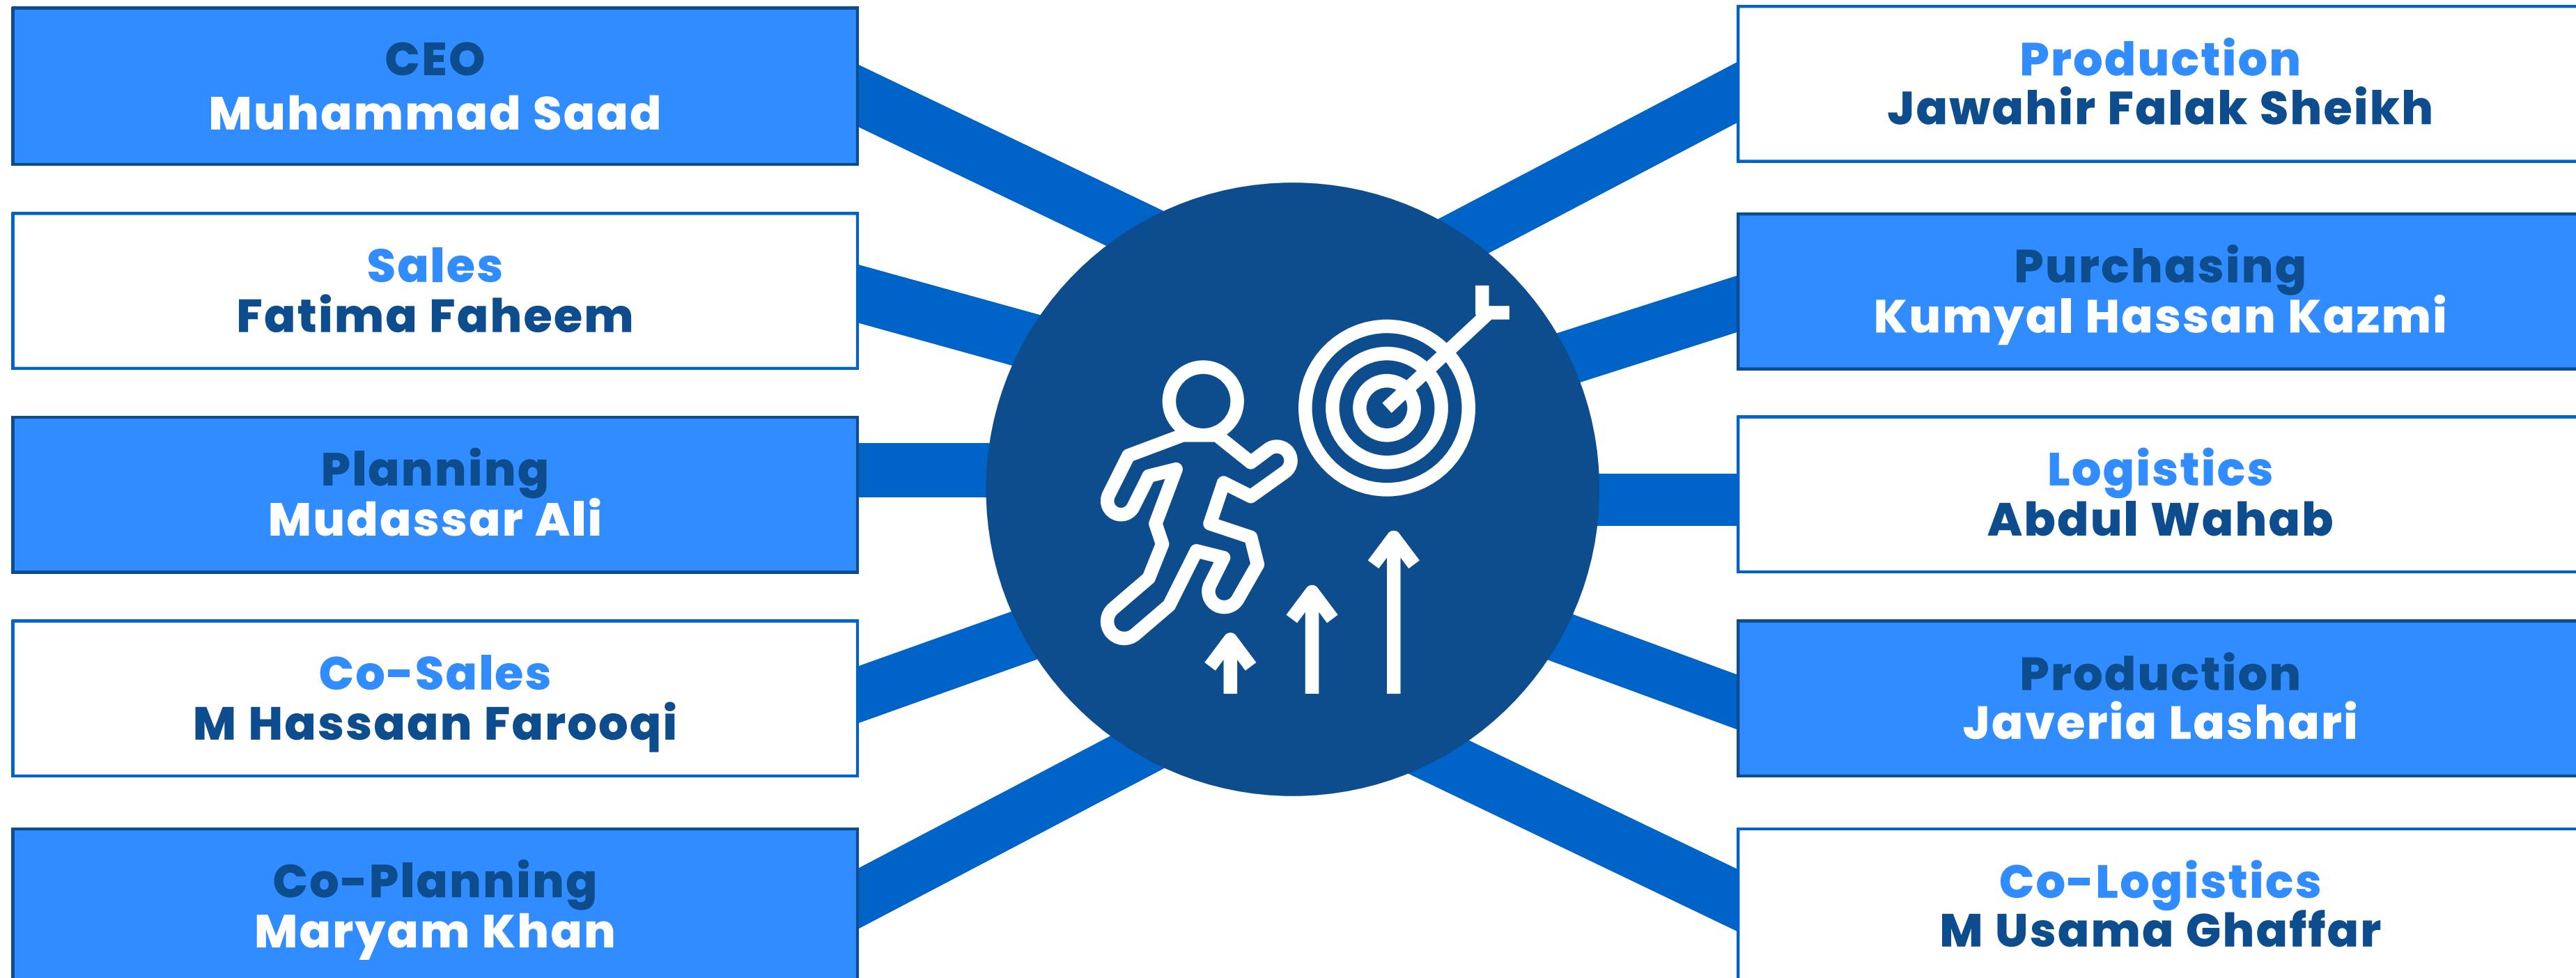

Our product development services help clients take their products from concept to completion. We work with clients throughout the entire development process to ensure that their products meet their specific requirements.

Supply Chain Management

Our supply chain management services provide clients with end-to-end supply chain solutions. We work with clients to streamline their supply chain processes, reduce costs, and increase efficiency.

Management Structure

Electrical Accessories

Cable Ties
are used for
bundling and
organizing
wires and
cables

Rs. 5 – 50
per piece

Cable Glands
to provide strain
relief and secure
cables entering
electrical
enclosures

Rs. 20 – 200
per piece

Terminal Blocks
provide a
convenient way to
connect and
secure multiple
wires or conductors

Rs. 50 – 500
per piece

Wire Connectors
used to join two
or more
electrical wires
together
securely

Rs. 10 – 100
per piece

Voltage Regulators

Small Capacity
(up to 1 kVA)

Rs. 2,000 to 10,000
per piece

Magnetic Contactors

Small Capacity
(up to 1 kVA)

Rs. 500 – 2,000
per piece

Circuit Breakers

MCBs
(1 AMPs to 63 AMPs)

Rs. 100 – 1,500
per piece

Smart Bulbs

Illuminate your home with smart bulbs that can be controlled remotely.

**Rs. 1,500 – 5,000
per bulb**
